PROFESSIONAL SUMMARY

Dedicated Computer Science student at SZABIST with hands-on experience in software development, web technologies, data science, and machine learning. Experienced in developing academic and practical projects using C++, Python, JavaScript, and modern development tools. Passionate about problem-solving, learning emerging technologies, and contributing to innovative software solutions in a professional environment.

EDUCATION

SZABIST

Bachelor of Science in Computer Science (CGPA: 3.55)

Jan. 2022 – Present

Karachi, Pakistan

- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Web and Mobile App Development, Database Management Systems, Software Engineering, Operating Systems, and Computer Networks.

EXPERIENCE

Server4Sale

Web Intern

Aug. 2025 – Nov. 2025

Karachi, Pakistan

- Contributed to front-end web development and website layout implementation.
- Managed and updated website content to ensure accuracy and consistency.
- Supported proposal writing and documentation for business requirements.
- Assisted in Quality Assurance (QA) testing to ensure functionality and standards compliance.
- Designed social media posts, certificates, and visual content using Canva.
- Completed a foundational cybersecurity course to strengthen technical knowledge.
- Demonstrated teamwork, adaptability, and eagerness to learn in a professional environment.

PROJECTS

Customer Churn Prediction System

- Developed an end-to-end Customer Churn Prediction System using Python and Scikit-Learn.
- Performed data preprocessing, feature engineering, and label encoding on telecom customer datasets.
- Built and trained a Random Forest Classifier to identify customers likely to leave a service.
- Deployed the model using Streamlit for real-time predictions and visualization of churn factors.

Automated Web Scraping & Data Extraction Pipelines

- Designed modular Python architectures to extract and process unstructured web data.
- Developed automated scraping solutions using BeautifulSoup and Requests.
- Extracted product information, pricing, descriptions, and metadata across multi-page websites.
- Implemented data parsing, cleaning, and normalization techniques.
- Managed request throttling, error handling, and URL construction for robust automation.

Library Management System

- Developed a Library Management System in C++ to manage books, users, and borrowing records.
- Implemented add, delete, update, and search functionalities for book management.
- Designed efficient data storage and retrieval mechanisms.
- Created a user-friendly interface to streamline library operations.

CERTIFICATIONS

Google Data Analytics Professional Certificate

Coursera

Feb. 2025 – May 2025

- Completed an 8-course certification focused on data cleaning, analysis, visualization, SQL, R, Excel, and Tableau.
- Developed skills in transforming raw data into actionable business insights.

Google Cybersecurity Professional Certificate

Coursera

Apr. 2024 – Aug. 2024

- Learned cybersecurity principles including network security, threat detection, Linux, incident response, and SIEM tools.
- Built foundational knowledge for protecting systems and organizational data.

SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, SQL, R

Libraries/Frameworks: NumPy, Pandas, Scikit-Learn, Matplotlib, Seaborn, Streamlit, BeautifulSoup

Tools: Git, GitHub, Visual Studio Code, Jupyter Notebook, SQL Workbench, Tableau, Canva

Concepts: Data Structures, OOP, Software Engineering, Operating Systems, Computer Networks, Machine Learning, Data Analysis

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Leadership, Critical Thinking

LANGUAGES

- English
- Urdu
- Sindhi
