

# MUHAMMAD TALHA ARSHAD

Karachi, Pakistan | (+92) 311 238 8611 | talhaarshad010@gmail.com | linkedin.com/in/talharshad | github.com/talhaarshad010

React Native Developer with 4 years of experience building high-performance, cross-platform mobile applications. Currently an 8th-semester Computer Science student, highly skilled in collaborating with cross-functional teams, managing complex global states, and engaging users through intuitive UI/UX workflows. Passionate about clean modular code, rendering optimization, native bridge integrations, and solving real-world challenges through mobile technology ecosystems.

## PROFESSIONAL EXPERIENCE

---

### Logic Loops Solutions, Karachi, Pakistan

02/2023–05/2026

#### Mobile Application Developer

- Delivered high-impact cross-platform mobile projects using React Native under tight timelines, contributing to a 45% increase in client satisfaction.
- Maintained 100% on-time application deployment pipelines, improving overall project throughput by 35%.
- Reduced runtime bug rates by 25% and post-deployment crash logs by 20% through scalable architectures, strict TypeScript implementation, and rigorous automated testing.
- Enhanced client workflows and system productivity by up to 30% by integrating tailored Native Bridges and custom software solutions across diverse application requirements.

### Code Master Innovative, Karachi, Pakistan

08/2022–01/2023

#### Junior Mobile Application Developer

- Contributed to the development of multi-user mobile applications and responsive systems, boosting client acquisition by 35%.
- Reduced overall product delivery cycles by 20% through effective code reuse, modular components, and streamlined development processes.
- Enhanced mobile user retention metrics by 30% by building responsive, pixel-perfect user-centric interfaces in tight collaboration with design and backend API teams.
- Improved mobile codebase maintainability by 40% by applying clean architecture designs and enforcing strict linting and coding standards across all features.

## EDUCATION

---

### Bachelor's in Computer Science

08/2023 – Present

SZABIST, Karachi, Pakistan

**Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Web and Mobile App Development, Database Management Systems, Software Engineering, Operating Systems, Computer Networks.

## PROJECTS

---

- **Mulder Streaming App** ([Play Store](#) / [App Store](#))

- Designed the interactive flow and architecture for a premium, cross-platform music streaming application utilizing **React Native**, driving user interaction up by 30%.
- Optimized dynamic audio tracking asset rendering and system responsiveness by 25% through advanced client state management with **Redux Toolkit**.
- Integrated production cloud architectures alongside MongoDB configurations to guarantee low-latency file delivery pipelines and smooth background caching capabilities.

- **Stern's Gym Trainer App** ([Play Store](#) / [App Store](#))

- Engineered a high-performance custom mobile platform tailored for gym trainer workflows and real-time client tracking using **React Native**.
- Designed custom UI screens and interactive schedule maps that enhanced screen navigation patterns and lifted application engagement metrics by 40%.
- Focused on seamless multi-role state logic, leading to a 35% growth in real-time user engagement and overall mobile product usability.

- **Hautique – Luxury E-Commerce Ecosystem** ([Live Site](#) / [GitHub](#))

- Developed a robust e-commerce mobile companion web view and platform integrations for a luxury brand utilizing **Next.js**, **Tailwind CSS**, and **Firebase** backend APIs.
- Built a comprehensive administrative panel managing full CRUD operations for product inventory tracking, live order workflows, and consumer metrics.

- **AI Medical Chatbot & Advisor** ([Live App](#) / [GitHub](#))

- Engineered an intelligent healthcare assistant showcasing automated medicine suggestions and interactive natural language communication tools.
- Designed data pipelines ensuring quick, context-aware information extraction to complement client-side medical recommendation feeds.

- **FrameStudio – Premium Digital Storefront** ([Live Site](#) / [GitHub](#))

- Created a high-fidelity visual UI showcase and dynamic storefront application layout, optimizing frontend viewport rendering hooks and modular component codebases.

## SKILLS

---

**Technical Skills:** React Native (Core UI / Hooks / Bridge), React.js, Next.js, HTML, CSS, JavaScript, GSAP, MUI, Tailwind CSS, Node.js, Next.js (API Routes), MongoDB (Compass & Mongoose), SQL, SQLite, Firebase (Cloud Firestore, Auth), C, C++, Java, Python.

**Soft Skills:** Team collaboration, Agile development, Problem-solving, Communication, Time management, Adaptability, User engagement.

**Tools:** Postman, Git, GitHub, VS Code, Android Studio, Xcode, Figma, Adobe Xd, Firebase Console, MongoDB Compass, React Native CLI, NPM/Yarn.

## CERTIFICATIONS

---

### **Web Development Fundamentals**

**02/2023 - 08/2023**

*APTECH, Karachi, Pakistan*

**Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Web and Mobile App Development, Database Management Systems, Software Engineering, Operating Systems, Computer Networks.

### **React Native - The Practical Guide**

**Completed in 2023**

*Udemy*

In-depth course on mobile app development using React Native. Covered frontend and backend development, including API integration, Firebase authentication, MongoDB for data storage, and building fully functional cross-platform applications.
