Summary

Computer Science student with experience in Python, Java, MySQL, and web development. Worked on software, database, and AI-based projects including computer vision applications. Completed a 3-month Team Lead internship at Techora, gaining leadership and coordination experience. Interested in software development and seeking opportunities in startups and tech companies.

Skills

- Skilled in Python, Java, and SQL with experience in building software, web, and database applications. Proficient in CSS, XML, and CSS for responsive UI development. Experienced in MySQL and backend connectivity. Familiar with OpenCV and Haar Cascades for basic AI and computer vision projects. Strong understanding of OOP, DBMS, and OS concepts with good teamwork, communication, and problem-solving skills gained through projects, internship, and tutoring experience

Education

■ Bachelor of Science in Computer Science (In Progress)

szabist university

Relevant Coursework: Programming Fundamentals, OOP, Database Systems, Operating Systems

Projects

■ University Projects

Emotion Detection System

Real-time facial emotion detection.

Face & Eye Detection System

Computer vision system to detect faces, eyes, and eyeglasses in real

Library Management System

Python and MySQL-based system for managing records and data.

AI Legal System

AI-based system to assist in legal decision.

Experience

■ Team Lead Intern | Techora

3-Month Internship

- Led a small development team during internship projects and task management.
- Coordinated with team members to complete frontend and backend development tasks efficiently.
- Assisted in project planning, debugging, and workflow management.
- Improved communication, leadership, and collaborative problem-solving skills.
- Contributed to web development and software-related tasks in a professional environment.

■ Home Tutor

2023 – Present

- Teach school students computer science and programming basics.
- Help students improve problem-solving and academic performance.
- Prepare students for quizzes, assignments, and presentations.
- Develop communication and leadership skills through teaching.
